

Multi-Family Real Estate Strategies & Services

Whether you have one property with 100 units or a multi-state portfolio with thousands of units, Oak Leaf Management can help you achieve your goals. Rather than completing one simple transaction, we focus on developing long-lasting, mutually-beneficial relationships with our clients. We get to know you, we know your business and we become uniquely capable of contributing to your long-term success. At Oak Leaf Management, we love energy, expertise, focus and commitment. We are highly invested in our employees so they will in turn be highly invested in you. This has been our tradition for more than 40 years, and it will be our traditional for years to come.

What sets us apart from the rest?

Strong and deep history in Houston and Southeast Texas

Trace back the history of Oak Leaf Management and you will find that we began more than 40 years ago offering multi-family property management. Since that time, we've expanded our service line and we've expanded our reach well beyond Houston, but our client commitment has remained.

Proven record with building operations and expense control

We remain active and interested in building operations and continually oversee building maintenance and recommend additional improvements. We employ stringent expense control strategies via vendor acquisition, contract negotiation and construction management.

Knowledge and desire to improve an asset's value

When we take on the management or leasing of a new property, we treat it as our own. This makes us keenly aware of the importance of each marketing tactic, each building improvement and each set of financial reports prepared. All our actions serve the goal of increasing that asset's value.

Financial reports that are timely and accurate

We provide timely reports to our property management clients that are accurate and easy to digest. Don't waste time wading through confusing reports to find the information you need. Our experience as asset owners helps us understand just what you need to know each month.
